

EXTENDED MINERVA DRIVE OPENS JANUARY 2018

We are delighted to share with you that the extended Minerva Drive will be open when we return to school in the New Year.

Instead of having to drive through the Camana Bay Town Centre to access the school, parents coming from George Town and the eastern districts will now be able to enter the school campus from the Camana Bay South roundabout which opened today. This means a shorter journey, less congestion and a hopefully more enjoyable school run.

Parents arriving from West Bay and West Bay Road can continue to enter via Maris Avenue or any of the main Camana Bay entrances.

The Minerva Drive extension off the Camana Bay South roundabout is for the exclusive use of Cayman International School; it is not a through road into Camana Bay. Traffic will flow into our existing one way system.

Please see the attached map to familiarize yourself with the new route.
