

Senior Spotlight: Bryce

I was born in Miami, Florida, but after birth was transported to the Cayman Islands where I have lived for an additional 17 years. My parents both originated from Canada, but my father's distant family was initially Irish and my mother's Eastern European. I initially went to Montessori by the Sea, but graduated from the school and joined CIS in 9th grade. When I was young, to little acknowledgement, I was a child star as the protagonist of Southampton Garden's TV broadcast on Cayman 27, but now I like to think I am a fun-loving, self-disciplined person who loves sipping piña colodas, and romantic long walks to the fridge to get more ice-cream after suffering another day in the IB.

- **What is your taste in music? Favourite song of all time, favourite at the moment? Why?**
 - I think that genre's don't really make a song so much as the song itself, but more generally I enjoy funk, just because it puts you in a good mood. My favorite song of all time, however, is "Smiling" by Harry Gregson Williams. It is a very calm song which involves piano and string instruments, so it is good to listen to whenever I'm in a sad mood, or before going to bed.
- **What activities do you enjoy outside of school?**
 - Outside of school, I enjoy playing football and other more relaxed sports such as bowling, singing, and going to church since it's a great place to learn and there is no better place to get good cooking.
- **What were you like as a kid?**
 - I was a pretty terrible child. I was generally stupid so I always joined my friends when doing something stupid, and I had atrocious anger issues so I was granted my own bean bag as a means of venting my anger. Thankfully all the teachers and admin at Montessori somehow still showed me love, cause eventually I turned my life around in 5th grade and decided that being the kid that "didn't apply himself" wasn't as fun sa it used to be.
- **Which is your favourite place on earth? Why?**
 - My favorite place on the planet would have to be my grandparent's cottage. It was located in the middle-of-nowhere, Canada, but spending time there with my sister, cousins, parents and grandparents was always fun. They sold that cottage a few years ago, but a place is only as good as the memories you make there, and thankfully you can take those with you.
- **If you could have any superpower, what would it be? Why?**
 - If I could have any superpower it would probably be the ability to shapeshift. If I needed to go anywhere I could just turn into an elephant if I needed to move something big, a fish if I needed to breath underwater, some flying creature if I needed to go somewhere, a bigger version of that creature if I needed to take friends, and into a bug if I needed to get through a super small gap. Furthermore, if I didn't understand what somebody was saying cause they were talking in spanish I could just turn into a spanish person. Bam! Almost nothing I couldn't do.
