

Senior Spotlight: Holly T.

I am Caymanian, born and raised, but I have family from Texas. The Cayman Islands have always been my home, but I only started at CIS during freshman year. I have really enjoyed getting to know my classmates and being in a diversified atmosphere, but I have found it challenging to take on the IB learner profile of open mindedness. This was especially hard for me coming from a small Christian school where everyone believed and accepted what we were taught as fact to a place where people debate and challenge each other's ideas. My vices usually occur when I say or do some things while being hungry. It is crazy to me that there are people in the world that go days on end without a meal. I couldn't even imagine. One of my favorite things in the world is getting to know underprivileged children. I believe they are some of the most enthusiastic, kind, pure, and strangely enough, hopeful people on earth. It's always a pleasure to get to laugh about absolutely nothing with them.

- **If you could have any superpower, what would it be? Why?**
 - If I could have any superpower in the world, I would want the ability to grow gills when I go under water so that I could explore all of the things that we might never get the chance to see.
- **You're about to walk the green mile, what do you have as your last meal?**
 - My last meal on earth would be a patty, a Dr. Pepper, and Texas Sheet Cake for dessert.
- **What is your favorite quote?**
 - *"Helping hands are better than praying lips."* - Mother Teresa. This is my favorite quote because I believe that the best possible way to live in through serving others. It allows you to learn more about the world around you.
- **What is your dream job/career? Why?**
 - My dream job is to build an orphanage or many orphanages for disabled children so they can get the proper care they need.
- **What are your plans after you graduate from CIS?**
 - After graduation, I am going to university in the USA to study business. Specifically, I would like to do a double major, a BBA and then a CPA to become an accountant and a degree in management/entrepreneurship depending on my university.
