

Senior Spotlight: Hunter L.

I was born in Grand Cayman and have lived here all my life. I am very eager to experience a new life elsewhere when I leave in 2018. I started CIS in grade 11, so I have been here for 1 year. Before that I attended Clifton Hunter High School. As for completely describing myself I would say I'm artistic. I'd say one of my worst personality traits is that I procrastinate. That's something that always catches up to you. On a better note, I guess I could say I am creative? At least in terms of artwork.

- **Are you a collector of anything? What? Why?**
 - Sometimes I collect sea glass. It's colorful broken shards of glass that become completely smooth from the waves moving them back and forth on the sand, they're beautiful and fun to organise. Also, feathers. Each one is different, and they're also very pretty. Another thing would be books, in which I have a small collection of my favorite series.

- **What is the greatest crisis we face as a world? Why?**
 - I'd say the hatred in the world going on right now towards different types of people. The key word here is "different". People are scared of things which are different, which causes them to react with anger, disgust, and even violence. The way to overcome this, at least partially, is to educate. Education cures ignorance. When people learn, they will no longer fear and react in horrible ways. Sadly, some people choose to stay wrapped in a cocoon of their ignorance and continue to live with a skewed view of the world, effectively not helping to move the world forward.

- **If you could eat dinner with any 3 people (dead or alive) who would they be and why?**
 - Firstly, Steve Irwin because he seemed to be the most genuine person you could ever meet. He was very heartfelt in the way he dealt with animals and it's a shame he passed away so soon. When I was younger I always wished I could have met him! Secondly, literally the whole cast of Impractical Jokers...but since I can only choose 2 others, James Murray and Joe Gatto. This show is basically an antidepressant. Its ridiculously hilarious. I'd absolutely love to meet/eat dinner with those 2 from the cast.

- **You're about to walk the green mile, what do you have as your last meal?**
 - Oh my, I wonder what I have done to be given the death sentence. If I actually had the stomach to eat before I am electrocuted/injected I would totally like to have Kawartha Dairy's chocolate chip cookie dough ice cream mixed with some milk (basically it's a milkshake), some sort of sweet tea, and s'mores!

- **What are your plans after you graduate from CIS?**
 - I plan to finally depart the island and live in Ontario, Canada. Having a dual citizenship really opens up doors on where to go next. Ontario's just a great place, besides the absolutely unaffordable housing market situation. My plan is to also attend an art university/college there to study to become an animator/illustrator (hopefully).
