

Senior Spotlight: Thanos B.

I was born in Greece by two Greek parents, and continued to live most of my life there. I have lived in only two countries, Greece and Cayman Islands. The end of this Senior year will mark my fifth year living in the Cayman Islands. I have been at CIS for four years. I am a relatively relaxed guy, but tend to be quite stressed when it comes to school. For a hobby I like to work on machines and engines (like rebuilding a go-kart). Anything “hands-on” I like. Most people wouldn’t know this, but I used to have a 2x1 meter model train track, and I used to obsess over adding to it.

- **What is your favorite quote? Why?**
 - “Do what you do and mean it every second of the day. If you don’t, you’re living someone else’s life” - Corey Taylor. I like this quote, since our actions as humans define us, and our actions should be coming from the heart. Some are more sensible than others, of course, but as far as character goes, being yourself is the most important value.

- **What activities do you enjoy outside of school?**
 - When I am around such an area, I really enjoy alpine skiing. Other than that, I really enjoy playing instruments.

- **If you could have any superpower, what would it be? Why?**
 - I would rather have time traveling. Learning from mistakes is good, but fixing them is even better.

- **What has been your most rewarding community service experience?**
 - My most rewarding community service experience would be going to Peru. Helping fix the community kitchen there was really fun, and a lot of people were really grateful.

- **Do you want to be famous? Why/Why not?**
 - Being famous would bring a lot of troubles along with you, especially certain media documenting your life on a daily basis. It is not worth the trouble.
